Exception Report		
This Exception Report worksheet is provided for TROs to communicate significant changes to or issues with report numbers. For each exception, use a different line and be sure to clearly communicate the item. GCRO will determine whether or not to make a note of it on the actual relevant chart/graph.		
*Please remove obsolete exception comments		
Exception ID	Date	Exception Comment
1	07/24/07	Additional row for the # of applicants we do NOT have data for can be added so that the total number of O, R and No Info should equate to the number of active leases; this applies throughout this table (please see Main Count Worksheet K90)
2	07/24/07	This information could not be provided: Main Count Worksheet B158 and B159
3	07/24/07	Additional row for the # of applicants we do NOT have data for can be added so that the total number should equate to the total number receiving RA/CLC (see K147) or an asterisked note should be added for clarification.
4	08/14/07	Reset the page breaks for the Main Count Worksheet to include the Totals column
5	08/14/07	Per the NPSC, Recoupment information is in flux and we are not authorized to report the information
6	08/14/07	For persons interested in THU, only applicants interested in purchasing MH were counted
7	08/14/07	Direct Housing Program Volume Reduction counts were changed from Aggregate to Active, which resulted in a much lower count than the previous week as well as an inability to post a week over change (as different criteria was requested)
11	08/14/07	Reference B241: This includes both the number of applicants whose PHP is NOT "app is finding a rental resource" and those who have been denied/refused rental resources. It may be more clear to delineate those whose PHP is NOT to find a RR, and those who have been offered RR, but have not found a suitable RR or have been refused RR from the landlord. To assume that 23,000 applicants have been refused RR is an exaggeration.
12	08/14/07	Reference B260: (please see explanation for cell J68 on ineligibility applicant counts)
13	08/19/07	Reference C138: Counts for applicants eligible for rental assistance are based on the count of applicants who received Rental Assistance as of 8/17/07.
14	08/19/07	Reference C140: Counts for applicants eligible for rental assistance are based on the count of applicants who received Rental Assistance as of 8/17/07.
15	08/19/07	Reference C277:J277: Previous week's count for "applicants interested but ineligible for rental assistance" included a few duplicate records. The statistic has been corrected and entered into the Main Count-Prev. Wk. to reflect the correct weekly change.
16	08/19/07	Reference J318: The previous week's count reflected the number of NOIs requested to be sent. The correction was made to now reflect the actual number of NOIs sent
17	08/21/07	Reference J153, J170, J187, J204: Increase in # of apps over 60 yrs is due to correction of household composition import.
18	08/21/07	Reference J217: Applicants with no income data or \$0 income is counted under # of HH with no data available. This group was previously counted under # of HH below 80% AMI.
19	08/21/07	Reference J254: Total number of applicants contacted/offered a rental resource will be offset by the number of applicants vacating. The number of apps contacted and offered a rental resource continues to increase. It may be preferable to report these subsets separately.
20	08/21/07	Reference J297, J299: Total number of apps swapped out or moved to a MH is continuing to increase; the number of applicants vacating offsets these increases. It may be preferable to report these subsets differently.
21	08/21/07	Reference J304: NPSC is working on providing this data.
22	08/21/07	Reference J101: Recoupment applicants have been included in the "ineligible" counts.
23	08/28/07	Reference J264 and J267: Previously, only one reason for cost was captured as a reason a rental resource was found unsuitable. We have since added the following options in the database: cost (rent), cost (application fee/deposit), and cost (utilities). We have started capturing these reasons for rental resource unsuitability, and we have moved the counts of "Cannot pay security/application fee/deposit" to "Concerned with paying rent when FEMA stops".
24	09/05/07	Reference J17: Currently, we are working through data exceptions on aggregate unit counts. This effort will entail modest fluctuations both positive and negative. Until completion of this effort, we will report invariable aggregate unit counts.
25	09/05/07	Reference J446: NPSC is working on providing this data; the ability to determine whether applicants have relocated to a location within or outside 50 miles requires GIS involvement.
26	09/18/07	Reference J395: The count of applicants who have refused all "Alternate Housing Options" has decreased; we have reassigned these applicants to their correct status under general inquiry.
27	09/18/07	Reference B57: In order to report the number of active units in Louisiana (any disaster), we counted units with Site Request (SR) State = Louisiana; CMA does not accurately reflect applicant THU current location.
28	09/25/07	Reference J295: The number of applicants requesting alternate housing has increased, because it now includes those who requested hotel/motel, other housing, and refused all options.
29	09/25/07	Reference J300: This number is lower than the weekly change in the number of applicants requesting housing because of the new way that J295 is being counted.
30	09/25/07	Reference F58 to I82: The previous week's Global report did not reflect the correct active unit counts for the specified parishes within the cells referenced. We have corrected the counts; both this week and the previous week's spreadsheet now reflect correct counts.
31	09/25/07	Reference J81 and J104: We previously defined a closed group site as one that had no units on site; the report now reflects the number of sites that have no occupants.
32	09/25/07	Per the discussion with the TROs and GCRO staff 9/19, the TROs will no longer be reporting Rental Assistance data.
33	09/25/07	Reference J454: We assume that those processed for CLC Prime prior to the date of the report have also moved in.
34	10/02/07	Reference B449 (Volume Reduction) and B322(Formaldehyde): Weekly changes now reflect weekly activity.
35	10/02/07	Reference J158 (Ineligibles): We will be working with the NPSC to obtain information on the new ineligibility codes.
36	10/02/07	We have included transient/ineligible households in the owner counts.
37	10/02/07	Reference B509 (CLC Prime): We are still working with the NPSC (and NPSC liaisons) to obtain true move in activity for CLC Prime. We will be reporting number processed until we get conclusive data.
